

June 8, 2007: Report from Assistant pastor, Outreach and Communications

Greetings in Jesus Name!

I want to express my heartfelt thanks to Pastor Jerry, the Local Board of Administration, and the local church body for the opportunity to be involved in this ministry capacity at Capital Park for another year. I want to also thank those of you who have assisted with these ministries.

Ministry

I assisted Jerry as requested in worship, announcements, communion, and teaching as requested this last year. I look forward to serving in these capacities as requested this next year.

I have enjoyed teaching an Adult Sunday School this last year, and look forward to next year as we are experimenting on integrating the resources on the Internet into our class.

It has been a source of great joy to be a part of men's group.

Computing

This last year we did not accomplish the goals from the previous year, but will press-on to complete them with some additional items this next year.

Next Years Goals:

1. Purchase Computer Lab Tables and arrange the SENCC computer Lab so it will be more ADA compliant and class-room friendly.
2. Purchase a Windows 2003 Server for 20 licensed users.
3. Complete the "Communications Closet" and place the new server in there for security reasons.
4. Implement additional Firewall Security Tools beyond the current Firewall/Security Device we currently have in place.
5. Train 1 -2 volunteers per church sub-group for maintaining their web pages – after training on the web development tools through our ISP.

If you are interested in getting involved, please leave a message at the church office or call me @ (503) 743-2150. So, if you are wanting to get involved in attending a class, teaching a class, supporting the computers, supporting web-page development, please give ma call.

In Christ's Service Together,
Pastor Ray Ethell
